

Extra-hard alloy with reduced gold content for metal-ceramic restorations, copper-free; bio certificate.

- **since 1991** commercially available and accepted worldwide – no known incompatibilities
- **copper-free** – also suitable for sensitive patients
- **bio certificate** – safety for dentist and patient
- **light-coloured oxide** – reliable colouration of ceramic materials
- **wide range of indications** – cost-saving
- **suitable for veneering** with plastics and conventional ceramics – no additional investments necessary

Samenstelling legering:

Composition (x = <1%):	
BegoCer® G	
	% by mass
Gold (Au)	51.5
Platinum (Pt)	0
Palladium (Pd)	38.4
Silver (Ag)	0
Copper (Cu)	0
Tin (Sn)	0
Zinc (Zn)	0
Indium (In)	8.7
Other elements (<1%)	Ru Ga 1,3
