

High-gold, extra-hard alloy for crowns and bridges, gold-yellow, palladium-free.

- **gold-yellow** – aesthetic advantage
- **palladium-free** – also suitable for sensitive patients
- **medium grain size 25 µm** – high corrosion resistance
- **since 1992** commercially available and accepted worldwide – no known incompatibilities
- **wide range of indications** – cost-saving

Samenstelling legering:

Composition (x = <1%):	
PlatinLloyd® 100	
	% by mass
Gold (Au)	72
Platinum (Pt)	3.5
Palladium (Pd)	0
Silver (Ag)	13.7
Copper (Cu)	9.8
Tin (Sn)	0
Zinc (Zn)	x
Indium (In)	0
Other elements (<1%)	Ir
